

Visionary Software Developer with a passion for creating seamless, high-performance digital experiences. Adept at transforming complex ideas into intuitive, responsive, and visually stunning interfaces, I bring expertise in HTML, CSS, JavaScript, and modern frameworks. With a strong focus on clean, scalable code and cutting-edge technologies, I thrive on optimizing performance, enhancing user engagement, and pushing the boundaries of web development. Constantly evolving with industry trends, I am driven by a relentless curiosity to innovate, refine, and elevate the digital landscape.

Technical Skills

- **Markup Languages:** HTML, CSS, JavaScript, TypeScript.
- **Frameworks and Library:** React.js, Next.js, Vue.js, Nuxt.js, React Query, Redux Toolkit, Vuex, Pinia.js, Bootstrap, BootstrapVue, React-Bootstrap, Tailwind CSS, SCSS, Vite.js, ShadCN, AntD, Material UI.
- **State Management & API Handling:** React Query, Redux, Vuex, Pinia.js, RESTful APIs, Axios, TanStack Query
- **Version Management:** Git, Github, Azure, Vercel, Netlify, GitLab.
- **Design tools:** Figma.
- **Security & Performance Optimization:** AES Encryption for End-to-End Security, SSR (Server-Side Rendering), SSG (Static Site Generation), Lazy Loading, Code Splitting

Professional Experience

Software Developer

(August 2022 - Till Date)

Sterling Bank

- Develop **production-ready, scalable, and responsive** web applications using **Next.js, Vue.js, React.js, TypeScript, React Query, Vuex, Redux, SCSS, Tailwind CSS, and JavaScript.**
- Optimize application performance through **server-side rendering (SSR), static site generation (SSG), and dynamic routing** in Next.js to enhance SEO and load times.
- Implement **state management solutions** (Vuex, React Context API, Redux Toolkit, React Query) to efficiently handle complex data flows.
- Work closely with backend teams to **integrate RESTful APIs**, ensuring smooth and efficient data exchange.
- Troubleshoot and resolve **Next.js, Vue.js, React.js, and general frontend issues**, improving application stability and performance.
- Leverage **Next.js UI libraries** such as ShadCN, AntD, and Material UI to build highly interactive and accessible components.
- Improve user experience by implementing **progressive enhancements, lazy loading, and code splitting** for optimized performance.
- Implement **authentication and role-based authorization** using JWT, NextAuth, and secure session handling.
- Implementation of end-to-end encryption utilizing AES (Advanced Encryption Standard) for secure data transmission.
- Work on **Sterling Bank applications**, contributing to key projects such as:
 - **SocialPay** – enhancing online payment features and security.

- **Sterling Ikollect** – optimizing banking functionalities and improving transaction flows.
- **Sterling OneTrade Application** – enhancing trading, investment, and financial transaction experiences.
- **Gazelle Application** – refining and extending core banking services.
- Collaborate in an **agile development environment**, actively participating in sprint planning, stand-ups, and retrospectives.
- Conduct **code reviews** and enforce best coding practices to maintain high-quality software development.
- Research and integrate **new frontend technologies** (e.g., Framer Motion for animations) to improve development efficiency and user experience.
- Provide **technical mentorship and knowledge sharing** within the team, fostering skill development and best practices.

Software Developer

(March 2024 - July 2025)

Consonance Investment Managers (Brane).

- Develop **production-ready, scalable, and responsive** web applications using **Next.js, React Query, Tailwind CSS, SCSS, CSS, and TypeScript**.
- Implement and maintain **Progressive Web App (PWA) functionalities** to enhance performance and user experience.
- Work closely with developers to **identify, troubleshoot, and resolve Next.js and frontend issues**.
- Optimize application performance by **implementing server-side rendering (SSR) and static site generation (SSG)** in Next.js.
- Integrate **API endpoints efficiently**, ensuring seamless data fetching and state management with React Query.
- Implement **authentication and authorization** using JWT, NextAuth, or other secure methods.
- Build and maintain reusable components and **custom hooks** to improve development efficiency.
- Develop key features for the **Brane application**, including:
 - **Buying electricity** via card, bank transfer, and wallet.
 - **Transaction management** and payment processing.
 - **User dashboard enhancements** for better usability and analytics.
 - **Stocks purchase and Stocks swap features** for easy purchase of stocks for the users.
- Collaborate with cross-functional teams in an **agile environment**, ensuring project goals and requirements are met.
- Conduct **code reviews** and follow best practices to maintain **clean, efficient, and scalable** code.
- Provide **regular progress updates** to team leads and supervisors, ensuring transparency in development workflows.

Frontend Developer

(May 2022 – September 2022)

Bookstars Limited

- **Developed and deployed** production-ready, highly responsive web applications using Vue.js, Composition API, Pinia.js, Tailwind CSS, and JavaScript, ensuring seamless cross-platform functionality.
- **Optimized application performance** by implementing efficient state management, lazy loading, and reusable UI components, resulting in improved loading speeds and user experience.
- **Identified, debugged, and resolved frontend issues**, collaborating closely with backend developers to ensure smooth API integrations and data flow.
- **Led code reviews and best practices** for Vue.js development, enhancing maintainability and scalability of frontend architecture.
- **Worked in an agile environment**, actively participating in standups, sprint planning, and retrospectives to align development efforts with project objectives.
- **Implemented UI/UX enhancements**, improving accessibility, responsiveness, and overall aesthetic appeal of applications.
- **Provided technical support and mentorship** to junior developers, assisting in resolving complex Vue.js challenges and improving team efficiency.
- **Maintained clear documentation** on development processes, best practices, and troubleshooting guides to streamline future updates and onboarding.
- **Collaborated with cross-functional teams**, including designers and project managers, to align technical solutions with business goals.

Education

B.Sc Marketing (Second Class Upper)

Delta State University, Abraka.

2016

Certifications

B.Sc Marketing (Second Class Upper)

2016

VueJs Forge Certificate.

2022

M.Sc Information Management

2025
